

ASSOCIATE DEGREES

MSJC offers a variety of Associate Degrees for students. MSJC offers both Associate in Arts (AA) and Associate in Science (AS) degrees that are non-transfer, as well as Associate Degrees that work towards transfer to four-year University; however, those are not Associates Degrees for Transfer (ADT/AA-T/AS-T).

Associate in Arts degrees are traditionally two-year interdisciplinary degrees that provide a broad exploration of a specific area of emphasis. Associate in Science degrees are typically two-year occupational degrees that prepare students for career and technical fields. Most Associates Degrees provide a solid foundation for further academic study for students wishing to transfer. To ensure students are following the proper general education pattern to work towards an Associates Degree, please meet with a Counselor.
