Instructional Programs

Instructional programs are “an organized sequence of courses leading to a defined objective, a degree, a certificate, a license, or transfer to another institution of higher education (Title 5, §55000).” Instructional programs of study at MSJC are designed to provide students with degrees, certificates, licensure and/or training for a variety of career and technical fields, and/or preparation for transfer to four-year colleges or universities. MSJC currently active certificate and degree programs may be found on the following pages. Detailed information about each program’s coursework and additional requirements are found on Instructional Program pages.
