Whether your goal is a career in music, to transfer into a four-year university as a music major, or simply to further your musical skill and understanding, the MSJC music program welcomes you! As a college-trained musician, you can find careers in a wide variety of fields from teaching and performing to song-writing/composing, recording/production, and music therapy. The skills and abilities you will gain can also be applied in other majors ranging from early childhood education to digital media to performing arts management.

In a community of fellow music-lovers, you will develop the skills needed to succeed as a musician: reading music, understanding the nuts and bolts of what makes music work, performing confidently both as a soloist and in groups, and composing your own music. In addition to interactive courses and ensemble rehearsals, music majors receive one-on-one, personalized instrumental or voice lessons. You will also have an opportunity to explore the rich diversity of global musical traditions, stories, and cultures to broaden your artistic inspiration and personal growth.

The music faculty specialize in a wide range of musical styles and interests from traditional Western art music, to jazz, to cultural studies.

Most of our music faculty remain highly active and in demand as performers, composers, clinicians, and promoters of music in the local community and across Southern California.

## Transfer Preparation

MSJC offers a wide range of course work that prepares students for the workforce or for transfer to four-year colleges and universities. All four-year institutions prescribe their own standards for course evaluation and admissions. Courses that fulfill major requirements for an associate degree in a program at MSJC might not be the same as those required for transfer into a similar major at a four-year university. Please meet with a Counselor to confirm transfer requirements.

Transfer students are advised to do research on prospective majors and careers. The MSJC Transfer Center and MSJC catalog can be helpful tools. Students interested in transferring to CSU's or UC's can access major preparation by visiting ASSIST (<http://www.assist.org>). All students are advised to meet with a counselor at least once a semester to create or update their comprehensive education plan.
