SOCIOMETRY

Overview

Program Description
Sociology is the systemic study of social institutions, human groups, collective behavior, and social change. Within the sociology program, we examine the complexity of human life while exploring the interconnection of individuals, groups, society, and its institutions in relation to gender, sex, social class, race, ethnicity, and other demographic characteristics.

The program is designed to empower students in their understanding of sociology in preparation for transfer, development in a wide range of careers, or personal fulfillment. Analysis of the social systems that shape our lives offers valuable insight into the ways in which we navigate life. Sociological thought offers a diverse range of methodologies to broaden understanding of the ways in which societal forces influence daily life, both domestically and globally.

Transfer Preparation
MSJC offers a wide range of course work that prepares students for the workforce or for transfer to four-year colleges and universities. All four-year institutions prescribe their own standards for course evaluation and admissions. Courses that fulfill major requirements for an associate degree in a program at MSJC might not be the same as those required for transfer into a similar major at a four-year university. Please meet with a Counselor to confirm transfer requirements.

Transfer students are advised to do research on prospective majors and careers. The MSJC Career/Transfer Center and MSJC catalog can be helpful tools. Students interested in transferring to CSU's or UC's can access major preparation by visiting https://www.assist.org. All students are advised to meet with a counselor at least once a semester to create or update their comprehensive education plan.
