

WELCOME CENTERS

Welcome Centers are available to current and prospective students. Friendly staff and college mentors (students especially trained to offer "student-to-student" assistance) are available to assist in using the online admissions application, orientation and registration process.

In addition, help is available in accessing the FAFSA (Free Application for Federal Student Aid), the CA Dream Act application (for undocumented students) and searching for scholarship information online.

Visit the Welcome Center at each campus location or on the Student Support HUB (<https://msjc.edu/hub/>) for virtual assistance.
